

NOTICE: The Kittitas Reclamation District ("District") hereby gives notice that it will accept sealed Bids for the construction of water conservation and operational improvements to their canal system. The anticipated bonding capacity required to execute the project is estimated to be in the \$1,000,000 to \$7,000,000 range.

Bid improvements consist of concrete lining, drainage, earthwork and other work, all in accordance with the contract plans, the contract provisions, and the specifications. The requested base bid and pre-priced optional improvements follow the existing South Branch Canal alignment for a distance of approximately 2.9 miles from Robinson Creek up to the Swede Tunnel outlet. The Project has been divided into 5 distinct Reaches with Reach 1 lining having been completed. The base bid improvements in these documents are for canal lining of the Reach 2 Milestone described as substantial completion of work related to canal lining and improvements between Stations 485+00 downstream and Station 472+25 along with access and fencing improvement for both Reach 1 and Reach 2.

It is the District's desire to line the remaining reaches of the canal upstream of Station 472+25 within two construction seasons. Pricing of the additional Reach 3, Reach 4, and Reach 5 is requested at time of initial base bid for potential optional award at the discretion of KRD. Optional award will depend on a variety of factors, including, but not limited to, weather, cost, Contractors work plan, demonstrated productivity on Reach 2, and the anticipated start of the 2020 and 2021 irrigation seasons on or about April 1 of each associated year. This optional pricing will not be factored into evaluation of apparent low bidder.

The District will receive sealed bids at the location listed below until 2:00 p.m. local time on August 23, 2019, and will then and there open and publicly read the Bids for the construction of the improvements.

Kittitas Reclamation District  
315 North Water Street  
Ellensburg, Washington 98926

A pre-bid meeting and site visit tour will be hosted on August 7, 2019 at 9:00 AM at the District office address listed above. Plans, specifications, and bidding documents are only available electronically and have been made available on the Kittitas Reclamation District website at [www.krdistrict.org](http://www.krdistrict.org).

Bidding documents are for the purpose of obtaining bids for the work. No authorization or conference of license is granted by District issuance of the bidding documents. Bidders are solely responsible for the cost of preparing their bids. The District specifically reserves the right, in its sole discretion, to reject any or all bids or re-bids or to waive inconsequential deviations from bid requirements not involving time, price, or work quality.
